ORGANIZATION

This catalog is arranged alphabetically. Subject headings have been chosen from the Library of Congress Subject Headings, for the most part. Many changes have been made from the 1985 edition, in an attempt to bring these headings into line with those used in our main card catalog for books.

The filing sequence of the subject headings is as follows:

ART	(single word)
ART--DIRECTORIES	(subdivision with dash)
ART--STUDY AND TEACHING	(subdivision with dash)
ART, ECCLESIASTICAL	(subdivision with comma)
ART AUCTIONS	(word phrase)
ART INDUSTRIES	(word phrase)

Because of an ideosyncrasy in the way our computer files, a word followed by a space will always file after that word followed by a symbol. This can sometimes be a problem. For example:

FIRE
FIRE-TESTING
FIRE INSURANCE

Under each subject are listed the periodical holdings of the Main Library subject departments. If a title is available at more than one of these locations, an entry has been made for each location. However, SFPL branches are not listed except for those titles not held by any Main Library department. For a listing of branch libraries subscribing to a title, see the Branch Union List of Periodicals.

Immediately below the title, the place of publication is given. This is followed by the holdings statement (see next page). Just to the right of the title is found the name of the subject department in which that periodical is located. Below the department name is the call number.

CALL NUMBER COLUMN

* Title is available for reference use only and may not be borrowed.

F Title is folio sized and may be shelved in a separate location with other large-sized books in the department.

D Title is a government document located in the Science and Documents Department.

B Title is biographical and located in the History Department.

J Title is located in the Children's Room.

SUBJECT HEADINGS - PHILOSOPHY

With the proliferation of computer-based indexing services on every conceivable subject, the need for specificity of subject headings in S F P L's **Subject Catalog of Periodicals** has been drastically diminished.

For the most part, a reader wishing a magazine or article on a specific subject will already have a title (if not the date and page) in mind, and will refer to the **Union List** to determine S F P L's holdings.

Therefore, the Subject Catalog will be used more as a browser's tool: a collection of lists of titles in general subject fields (similar to Ulrich's International Periodical Directory or the Standard Periodical Directory).

Any periodical may have as many as five subject headings.

> Each subject must apply to at least 20% of the text of any magazine listed under it.
>
> A specific subject, to be chosen for the Catalog, should be applicable to at least two periodical titles, preferrably more.

EXAMPLES:

SURFER will be listed only under "SPORTS", because the Library has no other titles on surfing.

FOOTBALL NEWS will be listed only under "FOOTBALL", because that is the only subject it contains, and there are several other titles with this subject.

SPORTS ILLUSTRATED should be listed under the major sports (BASEBALL, BASKETBALL, FOOTBALL) and also under the general subject "SPORTS" since it deals in a lesser way with many fields which do not have specific listings.

PROCESS ENGINEERING will be listed under "CHEMICAL ENGINEERING", because the Library has no other titles to be listed under "chemical processes".

As a browsing tool, the Catalog will be of value to the reader asking "What magazines do you have in the field of chemical engineering?". It will be of much less use to the reader wishing material on chemical processes, unless s/he can pick out the relevant titles among those listed for "CHEMICAL ENGINEERING".

Conversely, a person wanting to know ALL of the titles which the Library carries in the field of sports will find it necessary to check under all the major sports, as well as the general subject, "SPORTS".

OTHER EXAMPLES

COMPUTERS:
see also MICROCOMPUTERS, INFORMATION STORAGE AND RETRIEVAL, PROGRAMMING (ELECTRONIC COMPUTERS), etc.

BUSINESS
see also, BANKS AND BANKING, COMMERCE, FINANCE, INTERNATIONAL TRADE AND COMMERCE, MANAGEMENT, etc.

Library of Congress subject headings are used whenever possible to maintain uniformity and compatibility with the public catalog.

THESAURUS OF SUBJECT HEADINGS

This list follows the format of the Library of Congress Subject Headings. Those subjects which are used in the Subject Catalog are given in all CAPITAL LETTERS.
